INTEGRITI AKADEMIK

“Integriti tanpa ilmu adalah lemah dan tidak berguna. Ilmu tanpa integriti adalah berbahaya dan lemah”-Samuel Johnson

Pelajar USM perlu mempunyai pegangan kukuh terhadap nilai dan asas integriti, memahami maksud serta tujuan pendidikan USM. Nilai yang paling penting diperlukan bagi seseorang pelajar dalam bidang akademik adalah berasaskan prinsip mencari kebenaran dalam ilmu dan kejujuran termasuklah mengenai hak atau kepunyaan harta intelek. Oleh itu, pelajar mestilah berani bertanggungjawab dalam mengekalkan prinsip tersebut dalam semua usaha akademik mereka.

Ketidakjujuran akademik bermakna seseorang pelajar melanggar tujuan asas dalam memelihara dan mengekalkan integriti pendidikan USM dan dalam hal ini, pihak USM mengambil pendekatan tidak bertolak ansur dalam perkara ini. Berikut ialah amalan atau perbuatan yang dianggap sebagai tindakan tidak berintegriti dalam akademik.

(a) Menipu

Menipu dalam konteks akademik termasuklah meniru dalam sesuatu peperiksaan, penggunaan maklumat atau bahan bantu lain tanpa kebenaran atau secara tidak jujur. Terdapat pelbagai cara dan kaedah yang digunakan dalam penipuan akademik dan antaranya:-

- Menyalin jawapan daripada orang lain semasa ujian atau peperiksaan.
- Melakukan apa-apa perbuatan mencurigakan yang boleh dianggap sebagai menipu atau cuba menipu dalam peperiksaan.
- Menggunakan bahan atau alatan tanpa kebenaran (kalkulator, PDA, telefon bimbit, alat keluli, atau mana-mana “*smart gadget*” dan alatan lain yang tidak dibenarkan) semasa ujian atau peperiksaan.
- Meminta atau membenarkan pelajar lain untuk mengambil ujian atau peperiksaan bagi pihak diri pelajar dan sebaliknya.
- Berkongsi jawapan atau program bagi sesuatu tugasan atau projek.
- Sengaja merosakkan markah/gred kerja setelah ia dipulangkan, kemudian menghantarnya semula bagi pemarkahan/penggredan semula.
- Mengarah, memaksa, memujuk, memperdaya atau mengugut orang lain membuat penyelidikan, penulisan, pemrograman, atau jenis tugasan yang lain untuk kepentingan diri pelajar sendiri.
- Menghantar kerja yang serupa atau sama bagi lebih daripada satu kursus tanpa berunding atau terlebih dahulu mendapat kebenaran daripada pensyarah yang terlibat.

(b) Plagiarisme

Plagiarisme adalah “pencuri akademik”. Ia melanggar hak harta intelek pengarang. Plagiarisme bermaksud menghasilkan, mengemukakan dan menyalin kerja-kerja tanpa kebenaran terlebih dahulu dan pengakuan daripada sumber utama dalam bentuk artikel, cadangan, tesis, buku-buku, kerja-kerja yang tidak diterbitkan, data penyelidikan, persidangan dan kertas seminar, laporan, kertas kerja, kandungan laman sesawang, nota kuliah, reka bentuk, produk kreatif, produk saintifik, muzik, nod muzik, artifak, kod sumber komputer, idea-idea, dirakam perbualan / direkodkan dan bentuk bahan yang lain.

Secara ringkasnya, plagiarisme bermaksud penggunaan sebahagian atau keseluruhan kata-kata atau idea orang lain dan mendakwa ia sebagai milik pelajar tanpa merujuk pengarang asal. Antara contoh plagiarisme adalah:-

- Menyalin dan memasukkan atau menambah maklumat, grafik atau media daripada internet ke dalam kerja anda tanpa menyatakan sumber.
- Memparafrasa atau meringkaskan penulisan atau kata-kata orang lain yang bukannya ilmu atau pengetahuan umum tanpa merujuk sumber.
- Tidak meletakkan tanda pembuka dan penutup kata pada bahagian sumber yang diambil.
- Menggunakan hasil kerja orang lain, tugas, projek atau penyelidikan yang bukannya hasil kerja anda dan menjadikan ia seolah-olah hasil kerja anda.
- Memberikan maklumat yang tidak betul tentang sumber rujukan.
- Tidak memberikan penghargaan rakan usaha sama dalam sesuatu tugas, kertas, projek atau penyelidikan.
- Untuk projek berkumpulan, seolah-olah mewakili individu atau individu tertentu dalam kerjasama projek kumpulan sedangkan ia tidak benar (palsu).
- Menyerahkan tugas, kerja atau projek akademik dengan mengupah individu lain untuk menghasilkan tugas, kerja atau projek tersebut. (Membentangkan kerja yang dilakukan oleh orang lain sebagai kepunyaan sendiri).

Garis panduan Dasar Terhadap Plagiarisme Universiti dan peruntukan berkaitan plagiarism di dalam Kaedah Tatatertib Pelajar adalah terpakai.

(c) Pemalsuan

Pemalsuan bermaksud suatu proses pembuatan, beradaptasi atau meniru dengan maksud untuk menipu. Ia adalah suatu perbuatan memperdaya

orang lain. Pemalsuan pada dasarnya adalah sesuatu yang bersangkutan dengan objek yang dihasilkan atau diubah.

Ciptaan atau hasil tugas atau kerja akademik yang tidak memberi pengiktirafan, meminda, memalsu atau penyalahgunaan data, maklumat atau petikan dalam mana-mana kerja akademik boleh dianggap sebagai kerja-kerja pemalsuan. Maklumat yang dipalsukan dan bukannya hasil usaha sebenar pelajar yang berkaitan dengan sesuatu penyiasatan atau kajian tertentu adalah melanggar prinsip mencari kebenaran ilmu. Antara contoh pemalsuan termasuklah:

- Mengubah data atau keputusan, atau menggunakan keputusan orang lain, dalam sesuatu eksperimen, tugas atau penyelidikan.
- Memetik sumber yang tidak digunakan atau dirujuk.
- Sengaja menyenaraikan rujukan yang tidak betul atau rekaan.
- Memalsukan rekod atau dokumen akademik untuk kepentingan akademik.
- Memalsukan tandatangan pemberian kuasa dalam mana-mana rekod akademik atau dokumen USM yang lain.

(d) Bersubahat

Bersubahat secara umumnya bermaksud bersepakat menjayakan atau melakukan sesuatu perbuatan atau pekerjaan dengan tujuan tidak baik. Antara contoh bersubahat termasuklah:

- Mengupah, merasuah atau membenarkan seseorang membuat tugas, ujian/peperiksaan, projek atau penyelidikan untuk kepentingan sendiri.
- Melakukan atau membantu orang lain dalam sesuatu tugas, ujian/peperiksaan, projek atau penyelidikan secara tidak jujur bagi sesuatu pulangan.
- Membenarkan tugas atau kerja anda digunakan oleh orang lain.
- Menyediakan bahan, maklumat, atau sumber kepada orang lain, dan sedar atau tahu bahawa bantuan yang sedemikian boleh digunakan dalam cara yang tidak jujur.

(e) Faedah Tak Saksama

Faedah tak saksama secara umumnya bermaksud sesuatu kelebihan yang diperolehi atau dimiliki oleh seseorang secara tidak adil disebabkan oleh orang lain tidak mempunyai kelebihan yang sama. Dalam konteks USM, seseorang pelajar mungkin boleh memperoleh sesuatu faedah yang tak saksama dengan pelajar lain. Antara contoh faedah tak saksama ialah:

- Mendapat akses, menghasilkan semula atau mengedarkan semula bahan ujian atau peperiksaan sebelum masa yang dibenarkan.
- Menghalang orang lain daripada menggunakan bahan di perpustakaan dengan mencuri, merosakkan, memusnahkan atau menyorokkannya.

ACADEMIC INTEGRITY

'Integrity without knowledge is weak and useless, and knowledge without integrity is dangerous and dreadful.' - Samuel Johnson

USM students not only have to adhere firmly to basic values and integrity, but also understand the purpose and meaning of a university education. The most essential values in academia are rooted in the principles of truth-seeking in knowledge and honesty including one's own rights and intellectual property. Thus, students must bear the responsibility of maintaining these principles in all work done in their academic endeavours.

Academic dishonesty means a student violates the fundamental purpose of preserving and maintaining the integrity of university education and USM will not compromise in this matter. The following are examples of practices or actions that are considered dishonest acts in academic pursuit.

(c) Cheating

Cheating in the academic context includes copying in examinations, unauthorised or dishonest use of information or other aids in any academic exercise. There are numerous ways and methods of cheating and they include:

- *Copying from others during a test or an examination.*
- *Acting in a suspicious manner that can be regarded as cheating or attempting to cheat in an examination.*
- *Using unauthorized materials or devices (calculators, PDA, mobile phones, pagers, or any smart gadgets, and other devices) during a test or examination.*
- *Asking or allowing another student to take a test or an examination for you and vice-versa.*
- *Sharing answers or programme for an assignment or project. Tampering with marks /grades after the work has been returned, then re-submitting them for re-marking/re-grading.*

- *Direct, force, persuade, deceive or blackmail others to conduct research, writings, programming or other assignments for personal interest or self-importance of the student himself.*
- *Submitting identical or similar work in more than one course without consultation or prior permission from the lecturers involved.*

(d) Plagiarism

Plagiarism is "academic theft". It violates the intellectual property rights of the author. Plagiarism means to produce, present or copy others' work without authorization and acknowledgment as the primary source in the form

of articles, opinions, thesis, books, unpublished works, research data, conference and seminar papers, reports, paper work, website data, lecture notes, design, creative products, scientific products, music, music node, artefacts, computer source codes, ideas, recorded conversations and others materials.

In short, it is the use, in part or whole, of others' words or ideas and then claiming them as yours without proper attribution to the original author. It includes:

- *Copying and pasting information, graphics or media from the Internet into your work without citing the source.*
 - *Paraphrasing or summarising others' written or spoken words that are not common knowledge, without referencing the source.*
 - *Not putting quotation marks around parts of the material that has been copied exactly from the source.*
 - *Using someone else's work or assignment, project or research you did not carry out and then claiming it as your own.*
 - *Providing incorrect information about the source of reference.*
 - *Not acknowledging collaborators in an assignment, paper, project or research.*
-
- *Pretending to represent individuals or certain individuals in a group project when it is not true.*
 - *Submission of assignments, work or academic projects by employing another person to produce the assignments, work or projects (Presenting work done by others as your own).*

The Guidelines on University Policy against Plagiarism and provisions related to plagiarism in the USM (Discipline of Students) Rules will be applied.

(c) Fabrication

Fabrication means a process of invention, adaptation or copying with intent to cheat. This is an act of cheating other people. Fabrication is related to the object that has been produced or altered.

The non-acknowledgment of an invention or findings of an assignment or academic work, alteration, falsification or misleading use of data, information or citation in any academic work constitute fabrication. Fabricated information neither represents the student's own effort nor the truth concerning a particular investigation or study thus violating the principle of truth-seeking in knowledge. Some examples are:

- *Altering data or results, or using someone else's results, in an experiment, assignment or research.*
- *Citing sources that are not actually referred to or used.*
- *Intentional listing of incorrect or fictitious references.*
- *Falsifying of academic records or documents to gain academic advantage.*
- *Forging signatures of authorisation in any academic record or other university document.*

(d) Collusion

Collusion means cooperating with others to commit an act with a bad intent. Some examples of collusion include:

- *Paying, bribing or allowing someone else to do an assignment, test/examination, project or research for self-interest.*
- *Doing or assisting others in an assignment, test/exam, project or research for something in return.*
- *Permitting your work to be submitted as the work of others.*
- *Providing material, information or resources to others, with the knowledge that such help could be used in dishonest ways.*

(e) Unfair Advantage

Unfair advantage means an advantage obtained by a person unfairly because others do not have the same advantage. In the context of USM, a student may have an unfair advantage over other students. Examples of unfair advantage are:

- *Gaining access to reproduce or circulate test or examination materials prior to its authorised time.*
- *Depriving others of the use of library material by stealing, defacing, destroying or hiding it.*
- *Intentionally interfering with others' efforts to carry out their academic duties.*
- *Altering or destroying work or programme or computer documents that belong to others.*

(f) *Other violations related to academic integrity*

- *Taking, copying data or academic material from someone without her/his consent.*
- *Late to lectures, tutorials, class or teaching related to their courses.*
- *Late in sending or submitting any assignment given related to their courses.*
- *Any other violations that USM views as violating academic integrity.*

Consequences of Violating Academic Integrity

Students must also be responsible for protecting and upholding academic integrity in USM.

If under any circumstances a student comes to know of any incident that denotes a violation of academic integrity, the student must report it to the relevant lecturer. The lecturer is then responsible for investigating and verifying the violation and then reporting the matter to the Dean of the School.

- (i) *If any violation of academic integrity is considered minor or not serious, the Dean of the School can take ADMINISTRATION ACTION on the students involved.*
- (ii) *However, if the violation is deemed serious by the School, this matter will be brought to the attention of the University Student Disciplinary Committee where appropriate disciplinary action will be taken in accordance with the procedures that have been set down.*
- (iii) *If a student is caught for copying or cheating in an examination, the Investigation Committee for Copying/Cheating during Examinations will pursue the matter according to the university's procedures. If the*
- (iv) *investigation reveals that a violation has been committed, the student will be referred to the University Student Disciplinary Committee (Academic Cases). In this matter, the USM (Discipline of Students) Rules will be enforced.*
- (v) *Any student found guilty by the University Student Disciplinary Committee (Academic Cases) USM will be punished in accordance with the USM (Discipline of Students) Rules.*

UJIAN TURNITIN

Ujian Pengesanan Turnitin

Calon yang mendaftar untuk kursus Disertasi digalakkan untuk menghantar draf disertasi mereka yang telah lengkap untuk ujian pengesanan Turnitin. Ujian ini diadakan bertujuan untuk mengesan tahap kesamaan kandungan disertasi ini dengan penerbitan lain, serta untuk memastikan bahawa disertasi yang dihasilkan tersebut adalah asli dan berwibawa. HOW TO WRITE CITATIONS AND REFERENCES

A large, empty rectangular box with a thin gray border, occupying the bottom two-thirds of the page.

C. HOW TO WRITE CITATIONS AND REFERENCES

In writing your thesis or dissertation, you are required to properly acknowledge articles, books, chapter(s) in books, website and other sources referred to within a text. These sources will also have to be acknowledged in the reference list. A system therefore, will have to be selected and applied consistently. The APA (American Psychological Association) system is one of the many styles which can be utilized in writing the brief citations in the text and the full citations in the reference list. Besides the APA system, other systems such as the Chicago style, the Harvard style, the ASA (American Sociological Association) style and the MLA (Modern Language Association) style can also be used.

***Note:** All the following examples are extracted from the 6th edition of *The Publication Manual of the American Psychological Association*. (2011). For further information please refer to Chapters 6 and 7 of the book.

A: In-text Citation

1. One Work by One Author

The author-date method of citation requires that the surname of the author (do not include suffixes such as *Jr.*) and the year of publication be inserted in the text at the appropriate point:

Kessler (2003) found that among epidemiological samples Early onset results in a more persistent and severe course (Kessler, 2003).

2. One Work by Multiple Authors

Kisangau, Lyaru, Hosea, and Joseph (2007) found [Use as first citation in text.]
Kisangau et al. (2007) found [Use as subsequent first citation per paragraph thereafter.]

Kisangau et al. Found [Omit year from subsequent citations after first nonparenthetical citation within a paragraph. Include the year in subsequent citations if first citation within a paragraph is parenthetical]

3. Works With No Identified Author or With an Anonymous Author

When a work has no identified author, cite in text the first few words of the reference list entry (usually the title) and the year. Use double quotation marks around the title of an article, a chapter, or a web page and italicize the title of a periodical, a book, a brochure, or a report:

On free care ("Study Finds," 2007)

The book *College Bound Seniors* (2008)

(Anonymous, 1998)

4. Two or More Works Within the Same Parentheses

Order the citations of two or more works within the same parentheses alphabetically in the same order in which they appear in the reference list (including citations that would otherwise shorten to *et al.*)

Training materials are available (Department of Veterans Affairs, 2001, 2003)
