BIOGRAPHY

Dr. Mohd Syahmir Alias obtained all his three degrees from Universiti Sains Malaysia. His interest in the relationship between philosophy, religion, and science began early, deepened during his master's focus on epistemology, and culminated in his PhD research on the philosophy of science. Subsequently, as he delved into academic pursuits, his interest broadens to philosophy of religion in general, and particularly to Islamic, Chinese, and Indian philosophies. He is deeply committed to researching and teaching philosophy, sharing knowledge through writing, lecturing, and postgraduate supervision. His dedication reflects a belief in philosophy's intrinsic value and its power to broaden and liberate the mind.
