BIOGRAPHY

Dr. Mohammad Javad Maghsoodi is a Senior Lecturer in the Department of Geography, specializing in addressing challenges related to sustainability and human-environmental interactions. With a Ph.D. in Urban Planning obtained in 2012, Dr. Javad has a strong academic background. Previously, Dr. Javad served as an assistant professor of Urban Planning at Payam Noor University, Iran, where he also held the position of program coordinator for four years, contributing significantly to the academic community. His research interests span a wide range of topics including urban planning, tourism development, capacity building, Smart cities, and revitalization of worn-out fabrics. Currently, he has been granted a project by the Ministry of Higher Education Malaysia aimed at mitigating the socioeconomic impacts of the COVID-19 pandemic on vulnerable populations in the Asian region. In addition to his research pursuits, Dr. Javad has collaborated with international organizations such as the Research Executive Agency (REA) established by the European Commission (EU), contributing his expertise to research assessment activities from 2020 to 2022. Furthermore, Dr. Javad supervises eight Ph.D. students from various countries and coordinates the research methods course in the MSc Sustainable Cities and Communities program. Additionally, he contributes to the teaching teams for several courses in both undergraduate and postgraduate programs.
